It's been a while since I worked on my site, but don't worry I haven't abandoned it. During the next few days there will be some updates.

- * projects page (links to some projects and where to find info about them . of course it will only be modules that I was involved with)
 - * open registration (for those who feel like registering)
 - * open forum (slight template tweaks)
 - * usage of a media manager. 🍌
- If You've forgotten:

XM-Spotlight and All XM Modules location is

<http://sf.net/projects/xoopsmy>

and a release should be out soon for xm-spotlight (bug fix,compatibility,no added features yet)

XUUPS Moved To Google Code Yesterday
