The site is being reworked a bit. the blog is gonna be fed to the site and the current forum needs a template update.

spotlight module needs to be modified a bit also. so basically the whole site needs to be checked and modified where necessary.
the list continues.

the counter stopped working.
needing a script to auto ban some ips.
finish up the footer.. powered by:....
update some modules.

the summer has been busy. and xmspotlight 1.02Final will have to be done sometime in September..(using the original plans)
