Dec 16, 2006 . Im Planning On Releasing Another Version Of XM-Spotlight

A Week After Will Be The Release Of XM-Spotlight 1.02Final.

Lately Im Currently Working On The Documentation.
And Trying To Get The Show SubCategory CheckBox To Save Right.
Make The Module More Flexible.. But That Might Not Be Until Next Year (The Ability To Easily Add Plugins To Read News/Items From Different Modules)
And The Admin Section Is Still Only English.. (That Has To Change).
.. i think there are more things.. but im not sure what else there is.
