LatestNews v. 0.5 is Released
Modules
Posted by : Bandit-X
Posted on : Jun-16-2008

Arabxoops.com is happy to announce the release of Latest News block module.

This module displays the latest news from the news module (1.56) in a block.

Features:
1. Can set the number of articles to display, using one or more columns.
2. Can choose to display the title, author, date, comments link, and other display settings.
3. Can customize image properties in all articles (i.e. width, height, position, borders).
4. Can customize the number of letters to truncate each news item, without cutting off any words midway.
